wanna make sure you don't do uh so this is the adjustment the lock nut for the adjustment this collar here can be screwed in further out further this is already adjusted i don't want to mess with where the throttle cable is adjusted too so i'm going to do my best to leave that alone make sure whatever your adjustment point is if it's adjusted correctly and you don't have to do anything there don't mess with it make sure you don't move it and remember how it all goes together so for this particular motor i've got a

c-clip uh not a c-clip a retaining clip here that goes through a hole i gotta straighten that out right there straighten it out and then pull it out from the top and the washer pops out and the cable will come out on other boats you may have a lock nut you may have some other sort of fastener that attaches and holds the in place things in place so i'm going to do that i'm going to remove this retaining clip pull it out take the washer

make sure you don't lose them down in the engine bay anywhere set those aside and i'll show you what
